

Hot Oilers

- Tri-plex or Quint Pump
- Pumps up to 15000PSI, Various brands, Pressures and Volumes available
- Up to 600 HP gear box
- Chain Case & Gear Boxes up to 600hp
- 3.5M, 5.2M, 7M, 11M & 17M Burners
- Cincinnati blower
- 3x2" Durco or Mission
- Code dangerous goods bumper
- Hydraulic hose reel up to 10000 PSI
- 602 or 1502 Integral line pipe
- Steel tool boxes or aluminum
- Up to 15000 psi manifold and pop valve with pressure dampener
- 3" or 4" gear pump with variable speed control
- (Bowie, roper , T & E or V-power)
- TC 412, TC 407 and TC 406 tanks
- Controls, power divider, all tank valves air operated from control panel
- Authorized to build low & hi pressure piping to ABSA & Transport Canada Standards
- Wheeled extinguisher and hoist crane
- Turbine flow meter on burner

TCB DIGITAL FLUID MANAGEMENT SYSTEM

Provides a new level of **AUTOMATION** in mobile oilfield equipment. **INTEGRATES** all systems on pumping equipment, such as the truck, pump, hydraulics, and safety shutdowns into one interface. Converts this precise data into **REAL TIME**, on site and remote **MONITORING**. Information can be viewed on any **MOBILE DEVICE** as well as be sent **WIRELESSLY** to the customer. Generates **REPORTS**. Allows for **VERSATILITY** on all **SAFETY** shut downs.
